

Personal Bio:

Kenneth "Kenny" Neilson is a long time resident of Washington City. Married to Wendy Lewis for 28 years. Has 3 children, 2 boys and 1 girl. Education includes an Associates Degree in Business at Dixie College and Bachelor's Degree in Business Management/Marketing from the University of Utah.

Kenny has served on the Washington City Planning Commission. I believe that it is important that every citizen in Washington City has the right to be heard. As Mayor, Kenny will do everything in his power to make a difference, represent the voice of the citizens, use common sense in the decision making process, and seek to ensure what type of growth and development that is best for Washington City and its residents.

We all need to work together, be accountable, make correct changes where needed and help each citizen enjoy living in this great city.
